

**POWER MIGRATOR**  
*infusing life into legacy applications*

## PowerMigrator – the Legacy Modernization Platform

### Solution Overview

- ZSL's PowerMigrator is a legacy modernization platform which enables the enterprises to **migrate their legacy applications build in PB, VB, FoxPro and Cobol to latest WebSphere- & SOA-based J2EE technologies**
- Designed to automatically convert and migrate the legacy application codes to **J2EE codes** compatible with **WebSphere Application Server (WAS), SOA & AWS** cloud enablement
- Platform to migrate legacy apps to SOA and Cloud Enabled Applications providing business process automation, seamless interoperability, reachability and maximized resource utilization
- Available for **on-premise, cloud- and SaaS-based** deployments based on customer needs

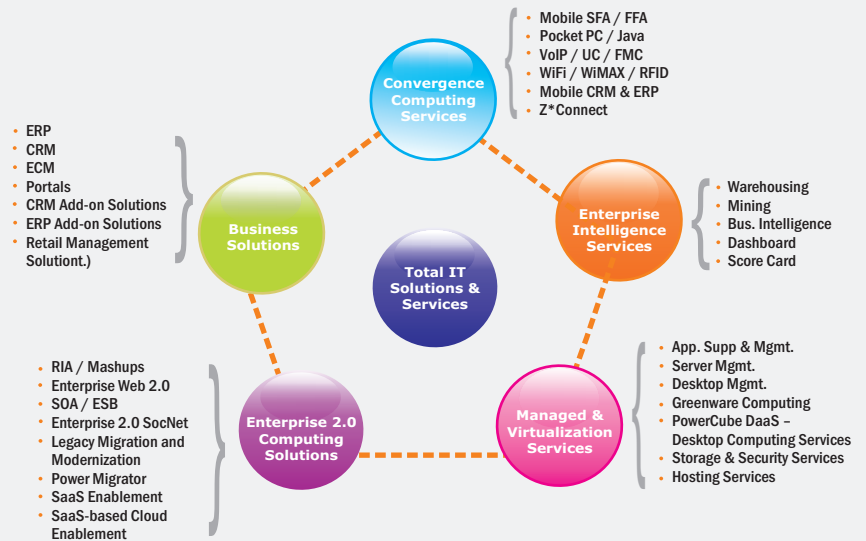

### Key Benefits

- **Saves 30-50% of time and effort** typically involved in re-write or migration of legacy applications and faster implementation services taking the product faster to market
- **Re-usability of 50-60% of your legacy application codes** bringing you regain the value of your old applications and **reducing up to 30% of your capital investments** on new technologies
- Automated migration processes with minimal human intervention owing to minimal or no errors
- BPM enablement for automated business processes providing more business flexibility and agility and optimized resource capitalization
- SOA technologies bringing in line the business and IT with greater interoperability and seamless interaction between the applications improving your business performance to newer heights
- Availability in cloud provides you with virtual infrastructure for **green IT environment, cost effective pay-per-use model which is scalable to demand** and gives accessibility to your host applications anytime anywhere from remote locations
- Virtualized environment drastically **reducing your spending on infrastructure, support and maintenance cost** and increasing your ROI
- With less capital investment, better application performance, automated business processes, resource optimization, reduced operating cost and faster time to market, **your TCO is slashed by 40% and ROI is doubled** within a short span

## About ZSL

- ZSL - the leading ISV, Global Systems Integrator and Business Solutions provider - is an IBM Advanced Partner Headquartered at New Jersey
- With 15+ years of industry experience is a pioneer in providing Onshore, Offshore & Near shore technology solutions and services to the enterprises worldwide
- State-of-the-art Technology Research & Development Centers in **US, Canada and India**
- 3000+ employees with offices in **US, UK, Canada, France, Germany, Malaysia, Singapore, Middle-East and India**
- Dedicated R&D Division - **IDEA (Innovative Development of Enterprise Applications) Lab** - to Offer Value Added R&D Services & Product Development Services to the ISVs, SPs and SIs
