Key Benefits of UEC

- UEC is scalable, so pay for what you use
- Allocate more capacity & instances only when you need it
- Save your licensing fee as UEC is free and Open Source
- Regular updates and quick to deploy
- Decrease your TCO through reduced hardware purchases and energy bills
- Secured infrastructure which limits your risks for your placed sensitive data
- No hidden costs

ZSL's Services for UEC

- Free Cloud readiness Assessment
- End-to-end services in building, managing and deploying in private and public UEC cloud
- End-to-end services in cloud enabling the applications
- Proof of concepts and pilot implementations
- Technical & Pre-sales support
- Implementation & Post Implementation support at affordable cost
