Microsoft Dynamics CRM Add-ons

Social CRM

SmartPrise Social CRM allows your business users to follow their prospects and customers in social media and brings social intelligence from past to current into your CRM application about the company, contact, leads, prospects from various publicly available sources such as social media networks like Facebook, LinkedIn, Twitter, Hoovers, ezines, editorials, publications.

Insurance CRM

Insurance CRM solution provides Microsoft Dynamics CRM-based portal tailored to Insurance companies that meet the end-to-end requirements in managing customer, accounts, policy holders and other policy related operations.

Mobile CRM

Mobile CRM solution provides the extension of your Dynamics CRM portal to smartphones, such as iPhone, Android, Blackberry, Windows Mobile and tablet PCs, which enables the business users to instantly access mission critical data about their customers, contacts and accounts anytime, anywhere.

Email Preview

Provides instant access to emails and attachments through a single-click and allows performing email-based operations from Dynamics CRM application

Dynamics CRM-QuickBooks Sync

Integrates Dynamics CRM & QuickBooks application and provides a single platform to perform both customer relation management and accounting operations.

Travel Assistance

Travel Assistance solution helps finding and tracking out customer location by narrowing down their choices in an area or other points of interest for mapping out places quickly and displaying driving directions on the route map.

CRM Case Dashboards

Microsoft Dynamics CRM Case Dashboard is an add-on component that provides real time information of your accounts and contacts in clear, intuitive graphical formats. It speeds, improves and extends managerial vision and decision-making capabilities – turning the challenge of a fast-paced environment into an opportunity for market leadership.

Copy Quote

Simplifies the creation of a new quote by allowing to copy an already existing quote and edit the required data fields.

Quote-To-Word

Quote-To-Word extract the quote details into word format in a single click and enables to print the quote.

Web to Lead

Automates and simplifies the difficult task associated in updating the web leads into contact management of Microsoft Dynamics CRM.
