ON A MISSION TO FREE THE NATION ONCE AGAIN.

Zylog Systems India Ltd is extremely proud to launch Wi5 in Chennai, a revolutionary wireless broadband service that will truly liberate the Indian internet user. Wi5 is based on the next generation Wi-Fi technology that enables us to provide a highly secure broadband service with higher mobility and speed at affordable cost.

Wi5 also has an added advantage of seamless connectivity to converged devices, like Wi-Fi enabled laptops, mobile phones, gaming consoles and handhelds. The Wi5 network can be instantly accessed by billions of such devices, whereas the same is not possible through other networks without additional investments.

Wi5 is brought to you by Zylog Systems India Ltd, a Category A Internet Service Provider (ISP). Wi5 services will be initially launched in major metros and gradually in the entire country. Now everyone can afford and enjoy high speed wireless broadband anytime anywhere.

- Zylog Systems India Ltd is a subsidiary of Zylog Systems Ltd (ZSL)
- ZSL was ranked #238 for the year 2008 in the VAR Business 500
 - Won 'Top Technology Practices' award for the 'Greenware Computing' initiative
 - Recognized as one of the 10 Fast Growth VARs to watch

Wi5 Wireless Broadband is currently available in areas of Besant Nagar, Adyar, Ashok Nagar, T.Nagar and OMR. For details call +91-44-39157607
