## Microsoft Dynamics RMS Signature Capture

Custom Development Solutions  
Mobility Solutions  
Microsoft Business Solutions

ZSL's Microsoft Dynamics RMS Signature Capture is an add-on component developed to address the supplemental business needs of the small and mid-size retailers by providing them integrated solution to manage operations within one store or across a chain of stores. This add-on solution helps you to have the receipts printed with the respective customer's signature.

ZSL designed Microsoft Dynamics RMS Signature add-on component to help you automate and accelerate your administrative operations while dealing with credit card and other types of payments. It gives you and your customers more reliable proof on the transactions done by the customers in the store.

## Significant Features of ZSL's Microsoft Dynamics RMS Signature Capture

ZSL's Microsoft Dynamics NAV Journal Entry provides complete business solution for GL-based accounting operations carried out in various industry verticals like Manufacturing, Pharma, Retail, Telecom, Banking and Finance, Consumer Electronics and more. You can

- ▶ Scans the customer signature against the respective transactions and stores it in the Microsoft RMS database
- ▶ Customer signatures are stored in the encrypted format
- ▶ The encrypted format is decoded and printed as image in the receipts
- ▶ Customer signature capture and printing on receipts is governed by a set of well-built business rules
- ▶ Capability of storing huge volume of data
- ▶ Repeated customer's signature are fetched from the database and printed on the receipt
- ▶ Easy integration with RMS POS receipt
